

CLOSURE SERVICES

Closure Consultation: 60 minutes, \$75

- **OUR FIRST GOAL:** To make the final moments as easy & peaceful as possible. The last weeks can be designed thoughtfully. A "good death" is a sacred passage--sad but intimate.
- **OUR SECOND GOAL:** To make the difficult period after death more manageable by supporting family through initial grief & alleviating the burdens of closing out affairs.

Some of the Options for Discussion & Education Are:

- **Prepare a Formal Plan for the last weeks & days:**
 - Help create meaningful rituals for during active dying & after death.
 - Create tailored, guided visualizations to ease stress, worry, & pain—for both the dying & loved ones.
 - Teach you what happens during the final weeks, days, & hours, & how to care for your loved one in these phases.
- **Provide Vigil & After-Death Support:**
 - Be present at the bedside during active dying & immediately after death.
 - Teaching the family how to bathe & shroud the body if desired..
 - Helping with farewell rituals & consulting on home funerals.
 - Providing support for bereavement in the first two weeks.
